1. **PRODUCT CODE:**
   A-590 Airtraq Docking Station.

2. **BASIC INFORMATION**
   The Airtraq Docking Station recharges the battery and displays the remaining service life of the Airtraq Avant Optics. It includes a socket where Airtraq Wi-Fi/Cameras A-360 and A-390 can be recharged. The Docking Station is supplied ready to use. Its package includes a Battery Charger needed to connect it to mains supply. USE DOCKING STATION ONLY WITH BATTERY CHARGER PROVIDED. In order to keep the Airtraq Avant Optics clean it shall be inserted into the Docking Station covered by the Optics Storage Case.

3. **DOCKING STATION INDICATORS AND CONNECTORS**
   1. Display: LCD that shows the remaining service life of the Optics as well as its battery charge level.

4. **AIRTRAQ AVANT OPTICS BATTERY CHARGE AND SERVICE LIFE CHECK**
   1. Display: LCD that shows the remaining service life of the Optics as well as its battery charge level.
   2. Insert the Optics by its proximal end. There is only one position in which the Optics fits into the docking station. Align the orange arrow on the docking station with the orange arrows on the Optics and Optics Storage Case.

3. **INSERT OPTICS**
   1. Display: LCD that shows the remaining service life of the Optics as well as its battery charge level.
   2. Insert the Optics by its proximal end. There is only one position in which the Optics fits into the docking station. Align the orange arrow on the docking station with the orange arrows on the Optics and Optics Storage Case.

4. **AIRTRAQ CAMERAS BATTERY CHARGE**
   The Airtraq Cameras DO NOT WORK WHEN THEY ARE BEING CHARGED. THEY SHOULD BE CHARGED AT LEAST 1.8 M AWAY FROM THE PATIENT.
   1. Connect the Docking Station to the electrical supply. It will automatically turn on and show an image in the display.
   2. Insert the Airtraq Camera into the Docking Station.
   3. Upon starting to charge its battery the Airtraq Cameras will automatically turn Off and will show in their screen a battery icon and the battery level expressed in minutes. For more details about battery charge process of Airtraq Cameras, please consult their corresponding IFU.

5. **CLEANING INSTRUCTIONS**
   The Docking Station is a non-critical device. Recommended cleaning is low-level disinfection. Be sure to follow your institution’s specific cleaning procedures in consultation with this manual.
   1. Remove Optics and/or Camera from Docking Station.
   2. Disconnect the Docking Station from the electrical supply.
   3. Cleaning: Use clean cotton gauze pads that are saturated with the cleaning solution to wipe down the external surfaces of the Docking Station. Use soft brushes with the cleaning solution to remove any residues from areas that cannot be reached with the gauze pads. USE DO NOT REMOVE ANY ADDITIONAL PARTS.

6. **OPERATING, STORAGE AND TRANSPORT**
   The Docking Station should not be stored or transported at temperatures below -5°C/23°F or over 55°C/131°F. The relative humidity must not exceed 95%. The air pressure must not exceed 500 to 1060 hPa. Please handle with care as with any other electronic device.

7. **TECHNICAL DATA**
   8.1. Docking Station
      - Electrical supply input ratings: 5VDC 2A 10W
      - Electrical output ratings: 5VDC, 0.8 A, 4 W
11. MANUFACTURER’S WARRANTY

Warranty & Service
The manufacturer warrants this device against failure or malfunction due to defects for a period of two (2) years from the date of purchase, provided that it is used in accordance with the procedures set up in the instructions for use. This warranty is only applicable if the device has been purchased from an authorized distributor.

The manufacturer disclaims all other warranties, whether expressed or implied, including without limitation the warranties of merchantability or fitness for a particular purpose.

The warranty covers free repair or swap for an equivalent device if a defect exists which is proven to be the consequence of the manufacturing process.

If you have any technical problems with the device, please call the Airtraq Distributor in your country as stated on the packaging through our website (www.airtraq.com) before making your call. We may have the lot number ready. The lot number of the Docking Station is located on the sticker on the back side of the device and also on the original package.

In case of a hardware defect confirming the warranty conditions, your device will be collected and you will receive another one within 10 working days after we receive your defective one.

Handling Instructions for Defective Devices
1. Return units must be packed in original and secured packaging materials. All accessories of the device (cables, etc.) have to be sent back.
2. Damaged incurred during transportation from the factory site is solely the responsibility of the sender.
3. Customer must provide a contact name, phone number, shipping address, the lot number of the Docking Station, description of the problem and proof of purchase.
4. In all cases when the device shows defects which are not covered by the warranty, the customer will remain responsible for all handling costs and transportation fees.

Exclusions from Warranty
1. Product, where lot number has been deleted, modified or removed.
2. Damage, deterioration or malfunction resulting from:
   A. Accident.
   B. Misuse, neglect, fire, water, lightning or other acts of nature.
   C. Repair or attempted repair by anyone not authorized by Supplier.
   D. Modification by anyone not authorized by Supplier.
   E. Any damage of the product due to shipment.
   F. Causes external to the product, such as; over powering the unit, electric power fluctuations or failure, pouring liquids over the device.
   G. Normal wear and tear.
   H. Any other causes which does not relate to a product defect.

12. IMPORTANT SAFETY INSTRUCTIONS

1. Keep, read and follow all of these instructions.
2. Heed all warnings in these instructions.
3. To reduce the risk of fire or shock hazard, do not expose this equipment to rain or moisture.
4. Do not install near any heat source such as radiators, heat registers.
5. Do not use this equipment in presence of flammable anesthetics, nor in oxygen rich environments.
6. Do not use this equipment with other medical devices.
7. Do not use this equipment for critical operation.
8. Do not use this equipment with other medical devices.
9. Do not use this equipment with other medical devices.
10. Do not attempt to service this device yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel from your Airtraq distributor.
